Subject: Division Directive to Reclaim, Geneva Rock Products, Inc., Point of the Mountain (South Hansen) Mine, M/035/0026, Salt Lake County, Utah

Dear Mr. Sumsion:

The directive issued by the Division of Oil, Gas and Mining on December 23, 2015, required that Geneva Rock Products include the 2.09-acre area subject to cessation order MC-2015-60-03 (the Subject Area) as part of the bonded disturbed area for the Point of the Mountain (South Hansen) mine. In accord with that cessation order and directive, the Division has received a reclamation surety for this area and a proposed modification to the Notice of Intention to Commence Large Mining Operations (Notice).

Utah Administrative Code Rule R647-1-102.3, however, states that the approval or acceptance of a complete Notice does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state, and federal agencies with jurisdiction over any aspect of the operator's mining operations. Here, Draper City has notified the Division that Geneva did not obtain a land disturbance permit for the Subject Area, is not permitted to mine the Subject Area, and is in violation of the Draper City Municipal Code.

Therefore, the Division requires that Geneva reclaim the Subject Area by April 30, 2016. The Division stands ready to work with Geneva and Draper City to develop a suitable reclamation plan. In the alternative to reclamation, Geneva may provide the Division with evidence that it is in compliance with Draper City code by, for instance, obtaining a land disturbance permit and presenting a copy to the Division.

Thank you in advance for your cooperation. Please contact me at 801-538-5261 if you have questions about this requirement.

Sincerely,

Paul B. Baker
Minerals Program Manager
